

We love Amsterdam Noord

We are committed residents, both old and new, of this once green, close-knit and quirky city district.

We see growing division and degradation of the quality of life caused by great neglect and the enormous densification, due to new construction, of old established neighbourhoods.

Through our main themes, we bring the voice of the North Amsterdammers to places of policy and power.

Every North Amsterdammer has a say,
so let us know!

Come on over to Mosveld 121.
